TITLE: Slave children's camp in Tekirdag

BEGIN TEXT: Ugur Dundar's Arena program, aired on Kanal D and CNN Turk, showed the plight of child workers who were made to work like slaves at brick factories.

Dundar, accompanied by Labor Ministry inspectors, visited the factory and brought to light the unhealthy working conditions. He also showed how he was detained by the Jandarma.

The Arena team, following a tip that was received from Tekirdag, documented that many children were made to work under incredible conditions at brick factories.

Children who were employed illegally were carrying heavy bricks in the mist of dust and soil. They were sleeping in unhealthy conditions at night. Even girls were working under the same conditions.

Dundar and his team entered a brick factory and interviewed the children. Upon the factory owner's application, the Jandarma detained Dundar and his team in Kumbag. They were released after three hours.

Murat Ayhan Basaran, Department Head for Child Labor at the Labor Ministry, said that children must not be employed under those conditions.

Highlights of the interview with the children included:

-- How old were you when you began to work here?
-- Nine.

-- Do you wear a mask?
-- No.

-- You have been here for one and a half months. How many times did you have meat to eat?
-- Twice.

-- What do you do for ten hours?
-- We clean the premises. It is hard. There is dirt and stone. We are constantly in dust. You cannot see around.

-- How much money do you get?
-- I get 10 million TL (less than 8 USD) a day.

-- Have you received that money?
-- Not yet.

-- Why are you washing your mouth?
-- It is full of dust.

-- When you spit, do you feel the dust?
-- Yes.

-- How do you describe this place?
-- I would say that working conditions are very hard. The daily payment is low. Sleeping (here) is awful.

-- In other words, you are saying that it is not suitable to sleep?
-- When you go inside, (you see) bedbugs. You can see (on me) their marks. END TEXT.
